

Who are the ADP ?

North Lanarkshire Alcohol & Drug Partnership was established in 2019. We are a strategic, multi-agency partnership made up of key agencies and stakeholders including local services, people with lived and living experience of substance use and family members, all working together to tackle alcohol and drug related harms and improve the health and wellbeing of our communities, families and individuals affected by alcohol or drugs. The work of the partnership is centered around improving quality, offering choice and creating more connections to keep people safe, well and thriving.

What do we do ?

North Lanarkshire ADP is committed to supporting the health and wellbeing of local families, reducing stigma around substance use and improving access to treatment and care for individuals affected by substance use. Our vision is a North Lanarkshire where individuals and families experience less harm from the effects of alcohol and drug use. People are safer, healthier and treated with dignity to make informed choices around their own care and empowered to find their own type of recovery.

Why are we looking for living and lived experience ?

We would like to bring together people from our local communities of Airdrie, Bellshill, Coatbridge, Cumbernauld, Motherwell and Wishaw who have or had experience of using alcohol & drug services in North Lanarkshire for either themselves or a loved one. The purpose of the group is to give members the opportunity to share their views and experiences to help inform the work of the Alcohol & Drug Partnership and in turn improve services in North Lanarkshire.

What is the aim of the group?

We would like to facilitate meetings where members of the community with lived and living experience of alcohol & drug use are invited to learn about the group. It is our aim that with the appropriate support & training, members will feel empowered to contribute their views on strategic proposals and work plans ensuring that the voice of people with lived experience is embedded in the North Lanarkshire ADP decision making process and the implementation of local services.
