

NLADP Lived and Living Experience Survey

We are seeking people with lived and living experience of substance use in North Lanarkshire to be involved in focused discussions with the Alcohol and Drugs Partnership to help us shape what we need to work on going forward. We want to know what is important to the people in our communities and would really appreciate your views on how you think these discussions should take place.

North Lanarkshire ADP is committed to supporting the health and wellbeing of local families, reducing stigma around substance use and improving access to treatment and care for individuals affected by substance use.

Our vision is a North Lanarkshire where individuals and families experience less harm from the effects of alcohol and drug use. People are safer, healthier and treated with dignity to make informed choices around their own care and empowered to find their own type of recovery.
